

Wednesday, June 1, 2011

Dear Southern Village Resident:

The Southern Village Homeowners Association Board of Directors has approved the resealing of the alleys and Asphalt Enterprises has been hired for this important project. You will find a color-coded map to use to find your alley. Here is the schedule:

Tuesday, July 5, Blue Section
Wednesday, July 6, Red Section
Thursday, July 7, Green Section
Friday, July 8, Brown Section

Monday, July 11, Purple Section
Tuesday, July 12, Pink Section
Wednesday, July 13, Yellow Section

This project requires help and patience from the homeowners. The owners of Asphalt Enterprises have specific requirements in order to have the job completed properly.

1. Please remove all cars from the driveways and the rear alleys by 7:30 am the day your alley is to be treated.
2. The asphalt must be dry for 24 hours before sealing; therefore, please do not wash cars or water grass/ flowers the day before sealing. Please turn off your sprinkler system until your alley has been treated.
3. The section treated will be blocked off overnight for curing time and the barriers will be removed when the crew arrives the following morning. Homeowners will need to park in front of their houses for one night.
4. Residents missing the 7:30 start time will not be able to move cars out of their driveways until the following morning.
5. If your alley is closed on garbage or recycle days, please put your cans in front of your house for pick-up.
6. Mail will be held the day the alley is closed and delivered the next day.

This is a big project that will go smoothly if all residents follow the items above. Your alleys will look better and will be better protected. If you have questions, please e-mail Michelle Johnson at officemanager@berkeleychapelhill.com or call 919-960-2836.

Sincerely,

Southern Village Homeowners Association
